Art Unit: 3662

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

On lines 6-8 of independent claim 1 as newly-amended, the use of the word "when" in the context of these lines causes a lack of clarity and definiteness as to what is claimed. Particularly, the phrase "when the first one of the antennas is transmitting ..." (line 6 of claim 1) appears to be a condition for the phrase "the second one of the antennas that is receiving has its minimum lobe at this point" (lines 7-8 of claim 1), which raises the question as to whether the second antenna always has its "minimum lobe" directed in the same way or if the "minimum lobe" is directed differently depending upon whether the first antenna is transmitting.

On line 8 of claim 1, "this point" lacks antecedent basis.

On line 8 of claim 1, "from a same direction" is indefinite and unclear in context in that it is unclear in context what earlier-named direction is meant.

On line 10 of claim 1, "the same direction" is indefinite and unclear in context in that it is unclear in context what earlier-named direction is meant.

On line 2 of newly-amended dependent claim 2, the phrase "adapted for an automotive vehicle" is indefinite and unclear in context in that the claim

Art Unit: 3662

language fails to set forth clearly and definitely how the named "radar antenna array" is "adapted."

Dependent claims 2-10 are unclear in that they depend from unclear independent claim 1.

3. Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

4. Claims 2-10 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
